## BRISTOL TRIO IS ATTEMPTING TO EVICT TENANTS

Albert G. and Winifred L. Herman Named The Defendants

### SUIT IS FILED

Quakertown R. D. Man Is Named Defendant in An Action in Assumpsit

DOYLESTOWN, June 23—A trio of Bristol residents is attempting to eject second-story tenants in a suit filed in the Bucks County Court.

Albert G. Herman and Winifred L. Herman, who are in possession of a second-floor apartment in a building located in the first ward in Bristol, at Radcliffe and Penn streets, have been named the defendants in an action in ejectment by Hamlet R. Giordano, Pasquale M. Vassaluzzo and Ralph F. Bocella, who own the building. The defendants have been in possession since July 18, 1947.

Antonio DeLuca, Richland township, Quakertown R. D. 3, has been named the defendant in an action in assumpsit in which the Commonwealth of Pennsylvania is suing for \$144.60 growing out of a bill in connection with a patient in the Allentown State Hospital. The claim runs from January 1, 1945, to December 31, 1948.

Albert Gower, who owns the car and Edward B. Gower, who was driving it, both of Browns Mills road, Pemberton, N. J., have been named the defendants in a \$135.37 action in trespass filed by Louis Veneziale, Lansdale.

The complainant, in a statement of claim, alleges that he was driving his car west on Fifth street in Perkasie and that Edward B. Gower was driving south on Vine street, July 9, 1947, when the cars collided at the intersection.

Chas. A. Hellyer Named "Marine of the Year"

Charles A. Hellyer, Philadelphia, a former resident of Bristol, who is National Public Relations Officer of the Marine Corps League, was highly honored Saturday when he was named the "Marine of the Year" at the 4th annual convention of the Department of Pennsylvania, Marine Corps League, held in Wilkes-Barre.

Hellyer, who is known to many thousands of Marines as "Charlie," was chosen for this honor from more than 55,000 former Marines who reside in Pennsylvania. A citation, suitably inscribed was presented to Hellyer by Lewis Feldmann, Judge Advocate of the League, who is a Hazleton attorney, and chairman of the committee.

The citation read in part "presented to Marine Hellyer for his many contributions in helping the advancement of the Marine Corps and the Marine Corps League and in furthering their many and varied programs."

Hellyer, who has been the Pennsylvania State Adjutant-Paymaster for the past five years, due to business activities did not accept an annual nomination this year for that office. However, he was appointed State Sergeant-at-Arms.

## A SUMMARY OF THE NEWS

Ratification of the North Atlantic treaty and passage of the arms-aid program implementing it at this session of Congress are of "the utmost importance," Secretary of State Acheson said yesterday. Reporting to the Senate Foreign Relations Committee on the Big Four Conference in Paris, he said that, although "some worthwhile progress" had been made, the meeting emphasized "the still widely divergent views" separating the Soviet Union and the Western powers.

John Foster Dulles, also discussing the Paris conference, said that Russia was concerned over the "steadily growing revolt" among her satellites "against the extreme intolerance of Soviet Communism." Soviet leaders, he added, may feel that the immediate problem "is not to get more, but to keep what they have."

Berlin rail strikers rejected a Western compromise proposal, but said they would make installations in western Berlin if Soviet authorities agreed. Soviet disapproval of the plan to resume service was seen.

A group of reputed German nationalists and militarists formed a rightist movement and called on the Germans to abandon Allied-

## DROUGHT HAS NOT ENDANGERED FRUIT

Edward M. Paxson Says Peach and Apple Conditions Are Good

### CHERRY YIELD HEAVY

It is stated by one of the big fruit growers of Bucks County that the drought thus far has not endangered the peach and apple yield, but fruit growers in some parts of New Jersey are beginning to feel the effects of the long dry period. Edward M. Paxson, Lumberville, says fruit growers in this and nearby areas, will not become alarmed unless there is no rain for ten or more days. Continued dry weather, it was explained, has a tendency to reduce the size of the fruit.

On the other hand, said Mr. Paxson, the dry weather has been favorable for orchards because it prevents the spread of scab on apple trees. This disease spreads much more rapidly if the weather is cool and rainy.

Commenting upon the fruit yield, Mr. Paxson said the cherry crop this season is unusually good, and for the past two weeks picking of sweet and sour cherries has been in progress on the Paxson property. Mr. Paxson attributes the heavy yield to the favorable weather earlier in the Spring and now. Should it be warm and rainy now, Continued on Page Four

## DOYLESTOWN SCHOOLS TO BREAK PRECEDENT

Will Discard Old-Fashioned System of "A" and "B" Sections

### "NATURAL GROUPING"

DOYLESTOWN, June 23 — The Doylestown school is breaking a time-honored precedent by discarding its old-fashioned system of "A" and "B" sections for its first eight grades.

Taking its place will be a "natural grouping" of the students, whereby teachers have been assigned every other student from an alphabetical listing.

Grades will now simply be divided into an equal number of children for each teacher. Pupils will be more inspired and will not have the stigma of "B" grade.

The long-awaited catalog-sized "Bulletin 233-B," the new elementary course of study put out by the Pennsylvania Department of Public Instruction, will also be put into effect next term. A revision of 233-A, the program has been under the general direction of Paul L. Continued on Page Four

## DEVELOPS AIRPLANE, ACTING AS OWN 'CHUTE

"Paraplane" is Name Given Aircraft Developed By Edward H. Lanier

### FORMERLY OF BRISTOL

MARLTON, N. J., June 23 — (INS) — Development of an airplane that acts as its own parachute in case of engine failure was disclosed today by the Lanier Aircraft Corporation.

Named the "Paraplane," the unique airship was secretly engineered and built in three years and nine months in the corporation's former small shop in Bristol, Pa.

The plane was test flown at the Marlton-Medford Airport, here, Lanier's new location. The two-place aircraft operates on a revolutionary principle, a "vacu-jet" airfoil plus a special wing design which gives it tremendous lift and remarkable stability at slow speeds.

The "vacu-jet" airfoil acts like a combination flap, air-chamber brake, and boundary layer control. The plane can land in small closed-in fields and city landing areas.

The plane was created by the Lanier Corporation after more than Continued on Page Three

## Remove 30 Tons of Hay To Prevent Possible Fire

CENTER POINT, June 23 — About 30 tons of hay which had been stored in the barn on the farm of Earl Clemens, near here, during the past two weeks was removed from the mows yesterday.

More than 100 neighbors and friends, working in relays, because of the gas filled barn and the intense heat, removed the greater part of the hay.

While the men worked until late, the women prepared sandwiches and coffee.

## ONE MAN'S OPINION

Say what you will about John Lewis, not many bosses, give someone else's workers a week off to prepare for a 10-day vacation.

The coal operators picked a fellow named Moses to deal with Lewis on a new contract. He will serve until they can find a Solomon.

The original Moses got a lot of attention when he laid down the law but he didn't have to lay it down to Lewis.

Speaking of presidents, a cultural warehouse is planned in Independence to house Mr. Truman's mementoes... the sweet and the bitter.

It will be a seven-story, block-long building costing \$5,000,000... that's provided Harry does only one elected term.

If he goes two more terms the building will be doubled in size and if he goes three a wing will be added for the Ripley collection of other odd facts.

HARD-TO WEAN

In the midst of the daily news there is a significant item. It concerns Turkey and its desire for a loan from the World Bank. The World Bank is presumably an international institution, but it is financed mainly by American capital put up by American taxpayers.

Turkey wants the loan to maintain the \$175,000,000 in military equipment which the United States gave to that country to stiffen its resistance against Russia. The Turks are having trouble buying fuel for the tanks, planes and trucks, ammunition for the guns, etc.

What Turkey is asking, in effect, is that American taxpayers buy the fuel and ammunition. It would be the height of gullibility to expect that Turkey would pay back a World Bank loan supplied in reality by citizens of the United States.

The serious aspect of this incident is that it is probably typical of the attitude of all countries that have been receiving American gifts. The Marshall Plan has been advertised as ending in 1952, but there is no doubt that countries receiving its largesse will keep their hands out if they think the United States will come across.

If Congress appropriates billions to rearm Europe, the ultimate outcome will be similar. Beneficiary countries will maintain they cannot afford to pay the current expenses of their military forces. It would surprise few persons if they asked American taxpayers to buy the food for their soldiers.

With a large part of the world leaning upon the United States, setting these countries back on their own feet will require a new outlook and an adamant stand in Washington.

Auto production will reach a new all-time high this month, it is predicted. Traffic ditto, it is feared.

A Dartmouth College student, accused of invading the room of a fellow student and slaying him, was fined \$500. The fine probably would have been heavier, but it was brought out at the trial that the slain student was studying.

A New York pedestrian was only slightly injured when struck by two autos within 10 minutes. He should have stayed down for the count the first time.

Color photographers are reported useful in helping to determine how eye colors are inherited which is baffling to those who thought they were donated.

Russia claims to have 29,000 citizens more than 100 years old, but does not explain why anyone would want to live that long in Russia.

War talk, which reached a new peak last week, has subsided somewhat again. But not sufficiently to revive talk of reductions in taxes.

WASHINGTON WEEK

By CHARLES L. EGENROD  
WASHINGTON, D. C., June 23—Obviously aware of the fact that President Truman is impotent in his dealings with the Democrat 81st Congress, the C. I. O. News has just urged union members to take into their own hands the job of getting action on the legislative program Mr. Truman promised to bring them during the campaign.  
The News listed the bills in which it is interested and then pointed out what has happened to them, or—more important—what has not happened to them.  
This is what the record shows:  
Senate Democrat Leader Scott Lucas (D., Ill.) did not get the labor bill to debate until three months after the Senate's Labor Committee had requested early action.  
Representative John Lesinski (D., Mich.), Democrat Chairman of the House Labor Committee, hasn't even gotten a labor bill out of his committee, as yet.  
The Wage-Hour Bill: House Democrat leaders haven't even set it for floor action yet and Senator Elbert D. Thomas (D., Utah) Committee still has the Senate bill tucked away in a Committee pigeonhole.  
Social Security Improvement bills H. R. 2593 and H. R. 2645 are still in the House Ways and Means Committee headed by Democrat Chairman Representative Robert L. Doughton (D., N. C.).  
A Housing Bill passed the Senate weeks ago, but House Democrat leaders were marking time under a new rule to get it to the floor because the House Banking Committee, under Democrat Chairman Representative Brent Spence (D., Ky.) failed to vote it out.  
Fair Employment Practices Bill hasn't even been approved by Representative Lesinski's Committee.  
Anti-Poll Tax Bill is all hung up in the House Administration Committee headed by Democrat Chairman Representative Mary T. Norton (D., N. J.).  
Socialized Medicine bills haven't even had hearings yet by the Committees headed by Senator Thomas and Representative Robert Crosser (D., Ohio), Democrat Chairman of the House Interstate Committee.  
Federal Aid to Education did make the grade in the Senate but isn't getting anywhere whatever in Mr. Lesinski's House Committee.  
Veterans Unemployment Aid Bill hasn't had hearings yet by the House Veterans Committee headed by Democrat Chairman John E. Rankin (D., Miss.).  
Displaced Persons Bill passed the House long ago but Democrat Chairman Senator Pat McCarran (D., Nev.) hasn't yet seen fit to call hearings by his Judiciary Committee.  
Committee Chairmen are all Democrats. All Committee majorities are Democrat and all majority leaders of both Houses of Congress—those who frame the progress of any legislative program—are Democrats.

We know that most people are not letter-writers. If something doesn't please them about a store they simply take their trade elsewhere.  
We don't want that ever to happen in our stores.

## Develops Airplane, Acting As Own 'Chute

Continued From Page One

17 years of research and experimentation by Edward H. Lanier and his father, the late Edward H. Lanier, who built his first airplane in 1907.

Company officials said the Paraplane has a speed well over 120 m. p. h. and makes stalls and spins obsolete. The wing span is 20 feet. The plane will not be available to the public until the mass production design is certified by the Civil Aeronautics Authority.

traveling. Often an over-supply of  
some unessential item will be taken  
along, to the neglect of much more  
necessary things.

One way to solve this problem is  
to procure a packed make-up kit,  
specifically designed to meet the  
needs of travel. While such kits  
are attractive luggage accessories,  
they are not true necessities. Ob-  
viously, the materials which such  
kits contain are the most important  
thing. The most luxurious kit in  
the world will do little to further  
the traveling comfort of its owner  
if it hasn't been supplied with the  
correct materials.

These kits present abundant sup-  
plies of cleansing cream, cologne,  
skin freshener, hand lotion, and  
soap. All are invaluable for quick  
freshening purposes, and such  
freshening is invariably needed to

an extraordinary degree when trav-  
eling.

Most of the stars also carry lip  
pomade, which is a first class in-  
surance against the chapped lips  
which often result under even the  
best of traveling conditions. Hand  
lotion can afford a comparable pro-  
tection to the hands and arms.

As for soap—a personal bar of  
any kind of soap you prefer will  
contribute much more to your trav-  
eling happiness than the miniature  
nondescripts which travelers so  
often find provided for them en-  
route.

If it is at all convenient to do so,  
have miniature size supplies of your  
make-up and grooming materials for  
use while traveling, aside from the  
full size quantities you intend to  
use when you arrive at your  
destination. Such smaller quantities

can be much handier than the full  
size for use while you are on your  
way. Don't overdo this matter of  
smallness, however, by not allowing  
yourself enough to meet your full  
grooming requirements.

If you have any doubts whatso-  
ever about being able to obtain your  
favorite make-up materials when  
you arrive at your vacation destina-  
tion, be sure to take an extra sup-  
ply of such items along with you.  
Lack of even one or two such things  
can mar a trip that might otherwise  
have been perfect.

When traveling, be sure to mini-

mize the need of make-up repair  
by firmly establishing your make-  
up applications with make-up foun-  
dation. Also, provide your hair with  
a comparable degree of durability  
by styling it simply and very firm-  
ly.

## JEFFERSON A. C. IN FIRST POSITION IN SOFTBALL LEAGUE

Jefferson A. C. took undisputed possession of first place in the Bristol Softball League last evening as it scored a close 6-5 win over St. Ann's A. C. on Memorial Park field.

Three runs in the seventh frame gave the "Saints" the triumph. The first were scored on singles by Steve Ciotti and Garbelli, an error by DiNunzio, a double by Albert Gambella, and hits by John Corrado and "Ed" Hunter.

St. Ann's got a run back by staging a rally in its part of the final session. After indicating go on by getting out a bump, Saxton launched a triple to right and was trying to stretch it into a home run. DeLuca and Pezullo were pay outs to end the inning.

"Buster" Monachello was the winning pitcher, giving St. Ann's eight hits. Jefferson had 12 hits off Monachello. DeMay with Tommy Rugeri have two out of three.

Jefferson has now won nine games and lost three while Tallentown has a 9 and 4 average with second Ward having 5 and four.

By Rabbi Aron Moskovits  
Of Ahavath Achim Synagogue

Friendship — Friendship must begin in our own heart, the genuineness of our feeling towards our fellowmen is the best test of friendship. Emerson correctly states, "the only way to have a friend is to be one." It is only natural that we show our friendship to others before we can expect reciprocity. In other words, before we can expect kindly treatment from others we must cherish the ideals of friendship in our own heart.

Friendship is not limited to the individual, even as true love should not be restricted to the immediate family but extended and expanded beyond the boundaries, reaching mankind as a whole, which is the highest reward mankind can expect because it fulfills the biblical injunction, "Love mankind as thyself."

# RUBINO PITCHES HIMSELF INTO HALL OF FAME

Turning in a beautiful no-run, no-hit performance "Pete" Rubino entered the Bristol Youth League hall of fame last evening as Bristol Terrace won its third straight game, trouncing Bristol Township, 18-0, on the former's field. Last Sunday, "Jimmy" Morrell, of Croydon, pitched a no-hitter so Rubino is the second youth to do the trick this season.

Other Youth League victories went to Croydon A. C. and the Third Ward Eagles.

Heavy hitting featured the Terrace victory as it set several league records. It scored fourteen runs in the fourth frame and in this inning William "Reds" Condit walloped two home runs. One came with one on base, giving Condit six runs driven in the one inning.

Besides the two homers smashed by Condit, "Frankie" Barbetta and Earl Cochran hit successive home runs in the same frame, giving Terrace four home runs in one inning.

The Third Ward Eagles had to come from behind to beat Bell's Aces, 7-6. Bell's scored six times in the first inning off the pitching of Bob Gillies but relief hurler Gene Hansen went in and silenced the Bell Aces' bats completely. He allowed two hits in the seven innings (he took Gillies' place with no one out in the first) and fanned 11 batters. At one stage of the game he whiffed five in a row.

Myrl Binkley started the Eagles off to the triumph in the seventh inning by tripling to left. He scored on a single by Dallas Jenks.

Croydon A. C. handed Newportville Redskins their first loss of the season, 9-2, on the Croydon diamond.

Joe Ashby was the winning moundman. He allowed the Redskins three scattered blows. It was Ashby's final Youth League game as he reaches the age of eighteen this week.

Ralston Hedrick had three out of three for the winners while Joe Dominick made two doubles and a single in four times up.

Baseball Schedule for Tonight:

FLANNERY'S and WEST BRISTOL (Township field)
----------------------------------------------

Fortune smiles on those who make a habit of reading Courier West Ads.

# WEST BRISTOL TO MEET EAGLES AGAIN TONIGHT

West Bristol A. C. and Flannery's Eagles will meet again this evening on Bristol Township's field. In their two previous meetings within the past week the two teams have battled to tie scores.

West Bristol needs the victory to clinch the first half of the Bristol Suburban Baseball League. Should West Bristol get beat it will finish in a tie for first place with Voltz-Texaco and a playoff will be necessary.

Should it rain this evening, the game will be re-scheduled for tomorrow evening or the next clear evening.

It is most likely that Earl Wagner will hurl for West Bristol with "Charlie" Martindale chucking for Flannery's.

# ST. ANN'S LEADS PIRATES WHEN GAME IS CALLED

TRENTON, June 23 — St. Ann's A. A. was leading the Trenton Pirates, 2-3, last evening on Wetzel field when the game was called in the ninth inning. A player on each team became involved in fistfights and the umpire put both players out of the game. The Pirates did not have an available substitute.

Stan Stevenson did the hurling for St. Ann's in the victory while "Rabbit" Palumbo led the batters with five hits in six trips to the plate.

## A SUMMARY OF THE NEWS

Ratification of the North Atlantic treaty and passage of the arms-aid program implementing it at this session of Congress are of "the utmost importance," Secretary of State Acheson said yesterday. Reporting to the Senate Foreign Relations Committee on the Big Four Conference in Paris, he said that, although "some worthwhile progress" had been made, the meeting emphasized "the still widely divergent views" separating the Soviet Union and the Western powers.

John Foster Dulles, also discussing the Paris conference, said that Russia was concerned over the "steadily growing revolt" among her satellites "against the extreme intolerance of Soviet Communism." Soviet leaders, he added, may feel that the immediate problem "is not to get more, but to keep what they have."

Berlin rail strikers rejected a Western compromise proposal, but said they would make installations in western Berlin if Soviet authorities agreed. Soviet disapproval of the plan to resume service was seen.

A group of reputed German nationalists and militarists formed a rightist movement and called on the Germans to abandon Allied-

## DROUGHT HAS NOT ENDANGERED FRUIT

Edward M. Paxson Says Peach and Apple Conditions Are Good

### CHERRY YIELD HEAVY

It is stated by one of the big fruit growers of Bucks County that the drought thus far has not endangered the peach and apple yield, but fruit growers in some parts of New Jersey are beginning to feel the effects of the long dry period. Edward M. Paxson, Lumberville, says fruit growers in this and nearby areas, will not become alarmed unless there is no rain for ten or more days. Continued dry weather, it was explained, has a tendency to reduce the size of the fruit.

On the other hand, said Mr. Paxson, the dry weather has been favorable for orchards because it prevents the spread of scab on apple trees. This disease spreads much more rapidly if the weather is cool and rainy.

Commenting upon the fruit yield, Mr. Paxson said the cherry crop this season is unusually good, and for the past two weeks picking of sweet and sour cherries has been in progress on the Paxson property. Mr. Paxson attributes the heavy yield to the favorable weather earlier in the Spring and now. Should it be warm and rainy now. Continued on Page Four

Grades will now simply be divided into an equal number of children for each teacher. Pupils will be more inspired and will not have the stigma of "B" grade.

The long-awaited catalog-sized "Bulletin 233-B," the new elementary course of study put out by the Pennsylvania Department of Public Instruction, will also be put into effect next term. A revision of 233-A, the program has been under the general direction of Paul L. Continued on Page Four

## DEVELOPS AIRPLANE, ACTING AS OWN 'CHUTE

"Paraplane" is Name Given Aircraft Developed By Edward H. Lanier

### FORMERLY OF BRISTOL

MARLTON, N. J., June 23 — (INS) —Development of an airplane that acts as its own parachute in case of engine failure was disclosed today by the Lanier Aircraft Corporation.

Named the "Paraplane," the unique airship was secretly engineered and built in three years and nine months in the corporation's former small shop in Bristol, Pa.

The plane was test flown at the Marlton-Medford Airport, here, Lanier's new location.

The two-place aircraft operates on a revolutionary principle, a "vacu-jet" airfoil plus a special wing design which gives it tremendous lift and remarkable stability at slow speeds.

The "vacu-jet" airfoil acts like a combination flap, air-chamber brake, and boundary layer control. The plane can land in small closed-in fields and city landing areas.

The plane was created by the Lanier Corporation after more than Continued on Page Three

## Remove 30 Tons of Hay To Prevent Possible Fire

CENTER POINT, June 23 — About 30 tons of hay which had been stored in the barn on the farm of Earl Clemens, near here, during the past two weeks was removed from the mows yesterday.

The hay began to heat and to emit gas to such an extent that it was felt necessary to move it to prevent spontaneous combustion. The hay was spread on the ground near the barn to permit it to cure thoroughly.

More than 100 neighbors and friends, working in relays, because of the gas filled barn and the intense heat, removed the greater part of the hay.

While the men worked until late, the women prepared sandwiches and coffee.

## Heavy Water Consumption Here Stops After Appeal

The borough water authorities are much pleased with the manner in which the consumers of Bristol water co-operated with them in shutting off lawn sprinklers and reducing all unnecessary water consumption, yesterday.

Tuesday evening the water in storage in Bristol was down to the five-foot level. Officials became alarmed and requested the Courier yesterday to appeal to consumers to shut off water sprinklers and to otherwise conserve the water supply.

Last evening at eight o'clock the water level went up to 21 feet, and for this the officials are grateful.

### HOSPITAL BUSY

## ONE MAN'S OPINION

By Walter Kiernan

(Distributed by International News Service)

Say what you will about John Lewis, not many bosses give someone else's workers a week off to prepare for a 10-day vacation.

The coal operators picked a fellow named Moses to deal with Lewis on a new contract. He will serve until they can find a Solomon.

The original Moses got a lot of attention when he laid down the law but he didn't have to lay it down to Lewis.

Speaking of presidents, a cultural warehouse is planned in Independence to house Mr. Truman's mementoes . . . the sweet and the bitter.

It will be a seven-story, block-long building costing \$5,000,000 . . . that's provided Harry does only one elected term.

If he goes two more terms the building will be doubled in size and if he goes three a wing will be added for the Ripley collection of other odd facts.

### Attempt to Save Korean Aid Bill

Washington—Secretary of State Acheson was called before the House Foreign Affairs Committee today in an effort to save the Administration's Korean Aid Bill. ### \$10,000 Fire Damage Caused at "Met" Opera House

New York — Metropolitan Opera House officials said today that \$10,000 damage was done last night by a fire in the famous theatre's "dress circle" balcony. They expressed bewilderment about the cause of the blaze in the empty building. Edward Johnson, retiring general manager of the Met, said repairs will start immediately to get the building ready for the next season.

### HARD TO WEAN

In the grip of the daily news there is a significant item. It concerns Turkey and its desire for a loan from the World Bank. The World Bank is presumably an international institution, but it is financed mainly by American capital put up by American taxpayers.

Turkey wants the loan to maintain the \$175,000,000 in military equipment which the United States gave to that country to stiffen its resistance against Russia. The Turks are having trouble buying fuel for the tanks, planes and trucks, ammunition for the guns, etc.

What Turkey is asking, in effect, is that American taxpayers buy the fuel and ammunition. It would be the height of gullibility to expect that Turkey would pay back a World Bank loan supplied in reality by citizens of the United States.

The serious aspect of this incident is that it is probably typical of the attitude of all countries that have been receiving American gifts. The Marshall Plan has been advertised as ending in 1952, but there is no doubt that countries receiving its largesse will keep their hands out if they think the United States will come across.

If Congress appropriates billions to rearm Europe, the ultimate outcome will be similar. Beneficiary countries will maintain they cannot afford to pay the current expenses of their military forces. It would surprise few persons if they asked American taxpayers to buy the food for their soldiers.

With a large part of the world leaning upon the United States, setting these countries back on their own feet will require a new outlook and an adamant stand in Washington.

Auto production will reach a new, all-time high this month, it is predicted. Traffic ditto, it is feared.

A Dartmouth College student, accused of invading the room of a fellow student and slaying him, was fined \$500. The fine probably would have been heavier, but it was brought out at the trial that the slain student was studying.

A New York pedestrian was only slightly injured when struck by two autos within 10 minutes. He should have stayed down for the count the first time.

Color photographers are reported useful in helping to determine how eye colors are inherited, which is baffling to those who thought they were donated.

Russia claims to have 29,000 citizens more than 100 years old but does not explain why anyone would want to live that long in Russia.

War talk, which reached a new peak last week, has subsided somewhat again. But not sufficiently to revive talk of reductions in taxes.

## WASHINGTON WEEK

By CHARLES L. EGENROAD

WASHINGTON, D. C., June 23—Obviously aware of the fact that President Truman is impotent in his dealings with the Democrat 81st Congress, the C. I. O. News has just urged union members to take into their own hands the job of getting action on the legislative program Mr. Truman promised to bring them during the campaign.

The News listed the bills in which it is interested and then pointed out what has happened to them, or—more important—what has not happened to them.

This is what the record shows: Senate Democrat Leader Scott Lucas (D., Ill.) did not get the labor bill to debate until three months after the Senate's Labor Committee had requested early action.

Representative John Lesinski (D., Mich.), Democrat Chairman of the House Labor Committee, hasn't even gotten a labor bill out of his committee, as yet.

The Wage-Hour Bill: House Democrat leaders haven't even set it for floor action yet and Senator Elbert D. Thomas (D., Utah) Committee still has the Senate bill tucked away in a Committee pigeonhole.

Social Security Improvement bills H. R. 2835 and H. R. 2645 are still in the House Ways and Means Committee headed by Democrat Chairman Representative Robert L. Doughton (D., N. C.).

A Housing Bill passed the Senate weeks ago, but House Democrat leaders were marking time under a new rule to get it to the floor because the House Banking Committee, under Democrat Chairman Representative Brent Spence (D., Ky.) failed to vote it out.

Fair Employment Practices bill hasn't even been approved by Representative Lesinski's Committee.

Anti-Poll Tax Bill is all hung up in the House Administration Committee headed by Democrat Chairman Representative Mary T. Norton (D., N. J.).

Socialized Medicine bills haven't even had hearings yet by the Committee headed by Senator Thomas and Representative Robert Crosser (D., Ohio), Democrat Chairman of the House Interstate Committee.

Federal Aid to Education did make the grade in the Senate but isn't getting anywhere whatever in Mr. Lesinski's House Committee.

Veterans Unemployment Aid Bill hasn't had hearings yet by the House Veterans Committee headed by Democrat Chairman John E. Rankin (D., Miss.).

Displaced Persons Bill passed the House long ago but Democrat Chairman Senator Pat McCarran (D., Nev.) hasn't yet seen fit to call hearings by his Judiciary Committee.

Committee Chairmen are all Democrats. All Committee majorities are Democrat and all majority leaders of both Houses of Congress—those who frame the progress of any legislative program—are Democrats.

## HOLLYWOOD BEAUTY PARADE

By Max Factor, Jr.

(Famous make-up advisor to the  
screen stars now writing for Inter-  
national News Service)

HOLLYWOOD, June 23 — (INS) — Looking over the current travel scene, it is not at all difficult to tell the experienced traveler from the inexperienced one, particularly at the end of a journey. By that time the appearances of the amateur travelers are frequently far from glamorous.

Taken away from the familiar accessories of their own dressing tables, these inexperienced ladies are inclined to become rather lost as far as the niceties of personal grooming are concerned.

A major cause of this condition lies in the victims' uncertainty about the variety and quantity of grooming materials required for

traveling. Often an over-supply of some unessential item will be taken along, to the neglect of much more necessary things.

One way to solve this problem is to procure a packed make-up kit, specifically designed to meet the needs of travel. While such kits are attractive luggage accessories, they are not true necessities. Obviously, the materials which such kits contain are the most important thing. The most luxurious kit in the world will do little to further the traveling comfort of its owner if it hasn't been supplied with the correct materials.

These kits present abundant supplies of cleansing cream, cologne, skin freshener, hand lotion, and for use while traveling, aside from soap. All are invaluable for quick and effective purposes, and such to your freshening is invariably needed to

an extraordinary degree when traveling.

Most of the stars also carry lip pomade, which is a first class insurance against the chapped lips which often result under even the best of traveling conditions. Hand lotion can afford a comparable protection to the hands and arms.

As for soap—a personal bar of any kind of soap you prefer will contribute much more to your traveling happiness than the miniature nondescripts which travelers so often find provided for them en route.

If it is at all convenient to do so, have miniature size supplies of your make-up and grooming materials. All are invaluable for quick and effective purposes, and such to your freshening is invariably needed to

can be much handier than the full size for use while you are on your way. Don't overdo this matter of smallness, however, by not allowing yourself enough to meet your full grooming requirements.

If you have any doubts whatsoever about being able to obtain your favorite make-up materials when you arrive at your vacation destination, be sure to take an extra supply of such items along with you. Lack of even one or two such things can mar a trip that might otherwise have been perfect.

When traveling, be sure to mini-

mize the need of make-up repair by firmly establishing your make-up applications with make-up foundation. Also, provide your hair with a comparable degree of durability by styling it simply and very firmly.

### Today's Quiet Moment

By Rabbi Aaron Moskovits  
Of Ahavath Achim Synagogue

Friendship — Friendship must begin in our own heart, the genuineness of our feeling towards our fellowmen is the best test of friendship, Emerson correctly states, "the only way to have a friend is to be one." It is only natural that we show our friendship to others before we can expect reciprocation. In other words, before we can expect kindly treatment from others we must cherish the ideals of friendship in our own heart.

Friendship is not limited to the individual, even as true love should not be restricted to the immediate family but extended and expanded beyond the boundaries, reaching mankind as a whole, which is the highest reward mankind can expect because it fulfills the biblical injunction, "Love mankind as thyself."

# RUBINO PITCHES HIMSELF INTO HALL OF FAME

Turning in a beautiful no-run, no-hit performance "Pete" Rubino entered the Bristol Youth League hall of fame last evening as Bristol Terrace won its third straight game, trouncing Bristol Township, 18-0, on the former's field. Last Sunday, "Jimmy" Morrell, of Croydon, pitched a no-hitter so Rubino is the second youth to do the trick this season.

Other Youth League victories went to Croydon A. C. and the Third Ward Eagles.

Heavy hitting featured the Terrace victory as it set several league records. It scored fourteen runs in the fourth frame and in the fifth inning William "Reds" Condit walked two home runs. One came with the bases loaded and the other with one on base, giving Condit six runs driven in the one inning.

Besides the two homers smashed by Condit, "Frankie" Barbetta and Earl Cochran hit successive home runs in the same frame, giving Terrace four home runs in one inning.

The Third Ward Eagles had to come from behind to beat Bell's Aces, 7-6. Bell's scored six times in the first inning off the pitching of Bob Gillies but relief hurler Gene Hansen went in and silenced the Bell Aces' bats completely. He allowed two hits in the seven innings (he took Gillies' place with no one out in the first) and fanned 11 batters. At one stage of the game he whiffed five in a row.

Myrl Binkley started the Eagles off to the triumph in the seventh inning by tripling to left. He scored on a single by Dallas Jenks.

Croydon A. C. handed Newportville Redskins their first loss of the season, 5-2, on the Croydon diamond.

Joe Ashby was the winning moundman. He allowed the Redskins three scattered blows. It was Ashby's final Youth League game as he reaches the age of eighteen this week.

Ralston Hedrick had three out of three for the winners while Joe Dominick made two doubles and a single in four times up.

# WEST BRISTOL TO MEET EAGLES AGAIN TONIGHT

West Bristol A. C. and Flannery's Eagles will meet again this evening on Bristol Township's field. In their two previous meetings within the past week, the two teams have battled to tie scores.

West Bristol began the victory to clinch the first half of the Bristol Suburban Baseball League. Should West Bristol get beat it will finish in a tie for first place with Voltz-Texaco and a playoff will be necessary.

Should it rain this evening, the game will be re-scheduled for tomorrow evening or the next clear evening.

It is most likely that Earl Wagner will hurl for West Bristol with "Charlie" Martindale chucking for Flannery's.

# ST. ANN'S LEADS PIRATES WHEN GAME IS CALLED

TRENTON, June 23 — St. Ann's A. A. was leading the Trenton Pirates, 2-3, last evening on Wetzel field when the game was called in the ninth inning. A player on each team became involved in fistfights and the umpire put both players out of the game. The Pirates did not have an available substitute.

Stan Stevenson did the hurling for St. Ann's in the victory while "Rabbit" Palumbo led the batters with five hits in six trips to the plate.
